

Michael Manangcaya
Jr. Software Engineer Inernship

Rizal, Philippines • +639704651625 • manangcaya.michael@gmail.com • [linkedin.com/in/michael-manangcaya-143606260](https://www.linkedin.com/in/michael-manangcaya-143606260)

SUMMARY

I'm Michael Manangcaya, a goal-oriented Computer Science student with strong international experience in customer service, gained from working as a Barista abroad. Proven ability to adapt to fast-paced environments, manage tasks efficiently, and collaborate effectively in team settings. Currently enhancing technical skills in software development, with a focus on learning programming languages and software engineering principles. Seeking an OJT opportunity as a Junior Software Engineer to apply my problem-solving skills, develop technical expertise, and contribute to innovative project.

PROJECT

Project 1: Smart Water Level Indicator Using Arduino

- An embedded system of Monitoring water levels in real time using Arduino, Water sensor, and buzzer alerts.

Project 2: RFID-Based Entrance Monitoring System for Subdivision Security

- An IoT system, Developing an RFID-based secure entrance system with real-time vehicle monitoring with data encryption.

PROFESSIONAL WORK EXPERINCE

Riyadh International Catering Corporation, Riyadh, Saudi Arabia

2021 - 2023

Barista

- Barista Lead with a focus on quality service, training, and delivery management. Trained and onboarded new baristas, ensuring they mastered beverage preparation, customer service, and store operations. Managed third- party delivery services with a 98%accuracy rate, maintaining high standards in order accuracy and timely service. Known for reliability, attention to detail, and a commitment to both customer and team success.

Saudi Manpower Solutions Company, Riyadh, Saudi Arabia

2019-2021

Barista

- I gained deep experience in brewing techniques, espresso machine calibration, and maintaining stock levels—ensuring consistency and quality in every cup.
- Working in Specialty coffee setting, I also played a key role in stocking and refilling supplies to maintain workflow efficiency.

Gilan Co. for Restaurants, AL khobar, Saudi Arabia

2016-2018

Barista

- I focused on crafting signature drinks and building strong customer relationships by explaining menu items and ensuring a comfortable, satisfying experience.
